

**VILLAGE OF GOODFIELD  
WATER DEPARTMENT  
114 S. EUREKA ST.  
GOODFIELD, IL 61742**

## **HYDRANT FLUSHING**

Mains are flushed periodically, notices are posted in advance at Knapp Lumber, Goodfield State Bank, Post Office and Busy Corner Restaurant. Most flushing will occur from 10:00p.m. to 1:00a.m. to avoid disruption to users

We flush our mains to avoid sediment and deposit buildups. While we are working in your neighborhood, you may experience a reduction in water pressure or draw some discolored water for a short time. If this occurs, just let the water run until clear before use. We also suggest that you check for discolored water before doing laundry or performing any other tasks that require absolutely clear water.

## **BOIL ORDERS**

**If a boil order is required, notices will be delivered to the specific area as required due to the nature of the boil order requirements**
