

# *Village of Goodfield*

## STREETS AND ALLEYS COMMITTEE MEETING August 22, 2019

Meeting was called to order at 7:00p.m. by Streets & Alleys Chairman Terry Nohl. The following were present: Committee member Roger Mullins and Trustee Daryl Wilkendorf. Also present were Engineer Duane Yockey and Public Works Administrator Josh Nohl.

The agenda for the meeting was to discuss the Erosion, Sediment and Storm Water Control Ordinance.

Engineer Yockey has recommended adopting the Erosion, Sediment and Storm Water Control Ordinance. It is already a State rule if you disturb an acre or more. Duane said if someone gets a State Permit we would get a copy of that then they would just fill out our permit form.

Engineer Yockey got a copy of Woodford County's Erosion, Sediment & Storm Water Control Ordinance which the Committee went through to modify to work for the Village of Goodfield. We will also send this to our attorney for review.

Motion was made by Mullins, seconded by Wilkendorf to adjourn meeting. Meeting adjourned at 7:53p.m.

Respectfully submitted,

Terry Nohl  
Streets and Alleys Committee Chairman
