

Village of Goodfield  
Water and Sewer Committee Meeting  
March 7, 2022 - 3:00p.m.  
@ Village Hall - 114 S Eureka Street

Chairman Roger Mullins called the meeting to order at 3:03p.m. Present were Committee members Roger Mullins, Terry Nohl and Daryl Wilkendorf, President Jim Edwards, Engineer Duane Yockey, Public Works Administrator Josh Nohl and Andrew Hoerr.

The purpose of the meeting is to discuss the Ingress/Egress Easement for Sanitary Sewer Trunk Main.

The Village had given Andrew a proposal regarding ingress/egress for the trunk sewer main and asked if he had any concerns or feedback on that proposal. He would like to add to the agreement that Hoerr Construction would do the work, since it is on his property. That would have to be discussed with the Village attorney. Engineer Yockey would like to sit down with Andrew and discuss the project. The line under the railroad needs to be replaced with a bigger main and on the other main put in a parallel 8" adjacent to the existing main which could be done open cut but it might make more sense to directional drill it. This is just one phase of the trunk sewer project. In order for a contractor to give a bid or estimate we would need to have the Engineer do the design first. As far as the \$20,000 for post construction drive way, Mr. Hoerr would like to check material prices to see what the costs would be. He will let the Village know what he finds out. Motion was made by Wilkendorf, seconded by Nohl to make a recommendation to the Board to have Engineer Yockey do the design for this portion of the sanitary sewer trunk main project.

There being no further business, motion was made by Nohl, seconded by Mullins to adjourn.  
Meeting adjourned at 3:55p.m.

Roger Mullins, Chairman
