

# Village of Goodfield

## Water and Sewer Committee Meeting

July 7<sup>th</sup>, 2014 at the Village Hall (7:00 p.m.)

Committee Chairman Wade Wettstein called the meeting to order at 7:00 p.m. Committee member Terry Nohl was present. Also present were Public Administrator Josh Nohl, Assistant Public Works Administrator Mike Carr, Village Engineers Duane Yockey and Ed Duran and Village President Ross Hohulin.

The agenda was to discuss Sewer treatment plant designs and bids. Stark Excavating was the apparent low bidder on the project. Engineer Ed Duran had visited with Stark about the proposed haul route(s) of the oversized trucks during the construction process. Committee member Terry Nohl expressed concerns regarding the truck traffic on the east berm of the existing lagoons due to the unstable soil and the proximity to the creek.

It was recommended by the committee to have Ed Duran and Josh Nohl meet with Stark Excavating to discuss the haul routes and the concerns regarding potential issues with the berm. At this time the committee does not recommend the award of the project.

There being no further business, the meeting was adjourned at 8:25 p.m.

Wade Wettstein, Chairman
